

成品信息:平装微水泥色卡

尺寸: 250x370mm

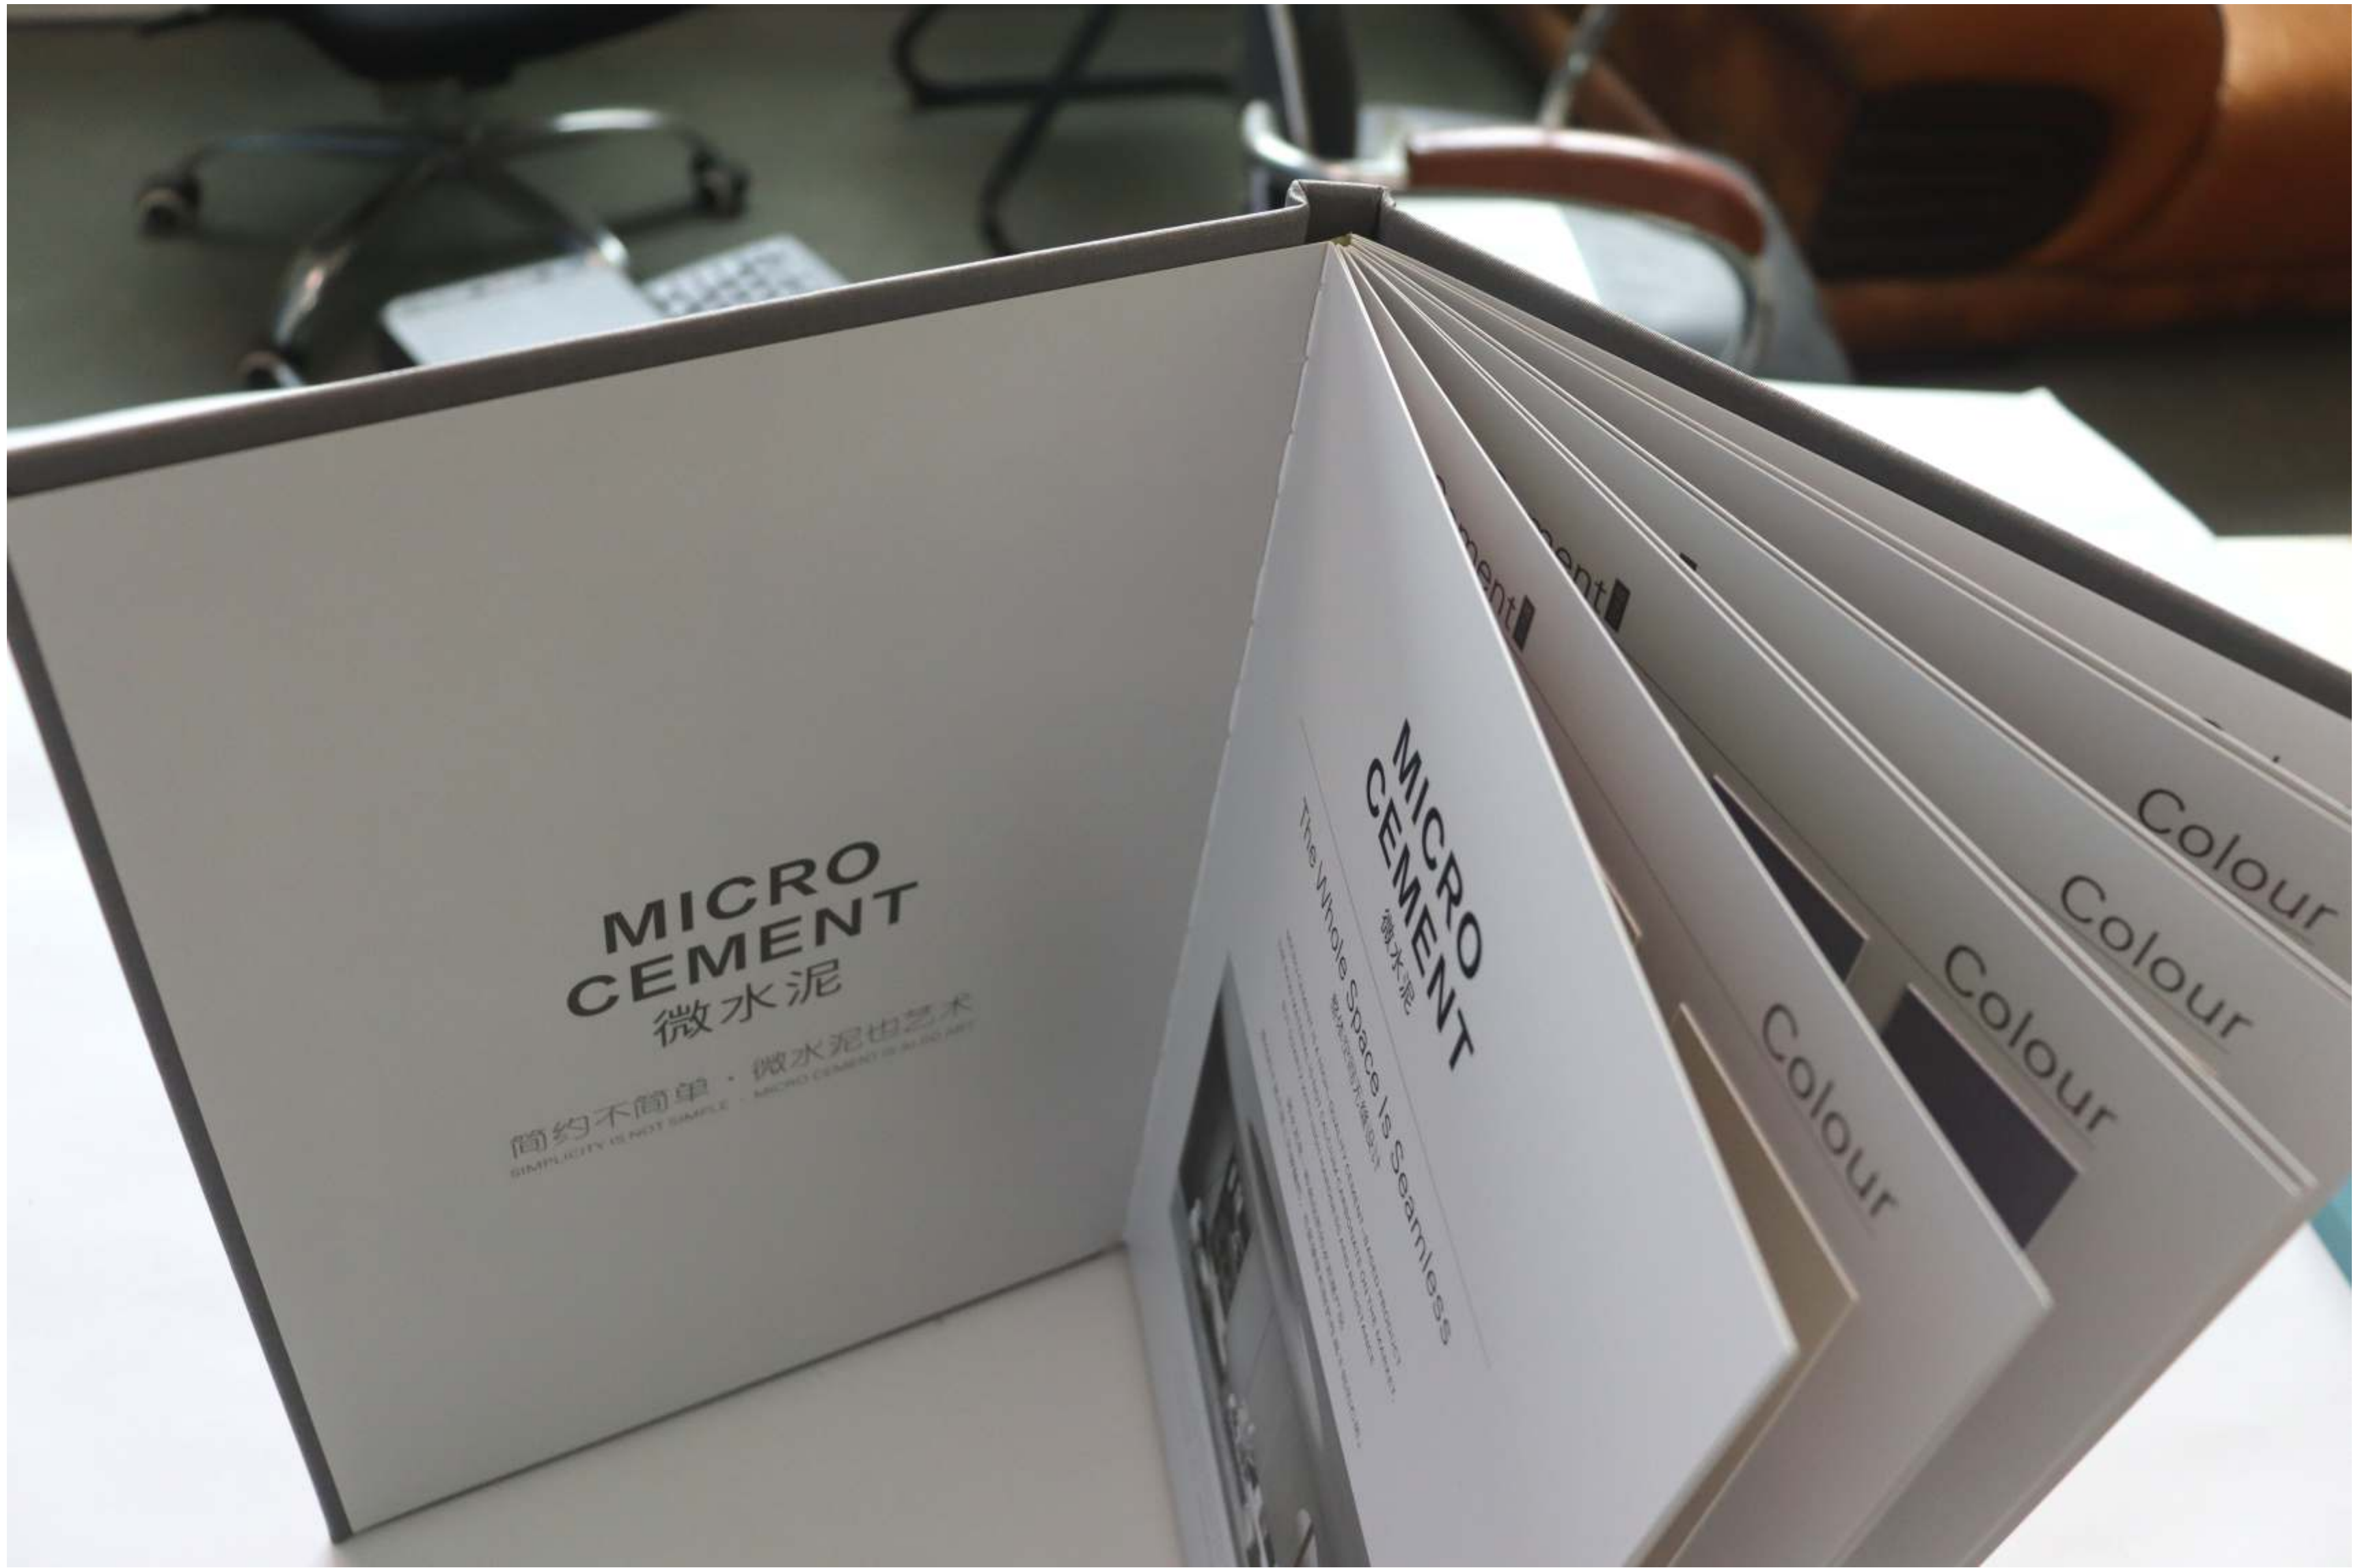

外壳材质: 皮革

封面效果: 铬印, 可定制

详情: 共有118个色

MICRO CEMENT

微水泥

简约不简单 · 微水泥也艺术

SIMPLICITY IS NOT SIMPLE · MICRO CEMENT IS ALSO ART

MICRO CEMENT

微水泥

The Whole Space Is Seamless

整体空间无缝设计

MICRO CEMENT IS A HIGH-QUALITY CEMENT-BASED PRODUCT
THE RAW MATERIAL IS NOT CALCIUM CARBONATE ON THE MARKET,
BUT QUARTZ WITH HIGH HARDNESS AND RESISTANCE

微水泥是一种高品质的水泥基产品
原材料不是市面上的碳酸钙，而是硬度和耐抗性高千倍的石英。

MAIN WALL AND FLOOR INTEGRATION,
AT PRESENT, ONLY THIS PRODUCT CAN CREATE VISUAL EFFECTS.

主打墙面地面一体化，视觉效果目前只有这种产品能创造出来。

MICRO CEMENT

微水泥

Excellent Water Resistance

绝佳的耐水性

微水泥拥有绝佳的耐水性，应用在卫生间的微水泥可以长期承受冷热水的冲刷，为狭小的卫浴空间创造了更多的可能。

Micro cement has excellent water resistance. The micro cement applied in the toilet can withstand the scouring of cold and hot water for a long time, creating more possibilities for the narrow bathroom space.

Excellent Stain Resistance

优秀的抗污性

可乐、咖啡、酱油等各种强酸弱碱的污渍，不会对其表面造成伤害，容易打理。

Coke, coffee, soy sauce and other strong acid and weak alkali stains will not cause damage to their surface and are easy to take care of.

Rich Colors

丰富的色彩

采用矿物色浆的进行调色，在满足色彩的同时，保证经久不褪色。

The mineral color paste is used for color matching to meet the color and ensure that it will not fade for a long time.

MICRO CEMENT

微水泥

Excellent Flexibility

优秀的柔韧性

双组份微水泥有着较高的柔韧性，只要基层不出现开裂情况，微水泥产品本身不会开裂。即使弯折90度也不会开裂。

The two-component micro cement has high flexibility as long as the baseThe layer will not crack, and the micro cement product itself will not crackcrack. It will not crack even if it is bent 90 degrees.

High Strength Adhesion

高强度粘附性

双组份微水泥对各种基底的粘附性更好。可以直接施工于大理石，瓷砖，模板，水泥板等基材表面。

Two component micro cement has better adhesion to various substrates. It can be directly applied to the surface of marble, ceramic tile, formwork, cement board and other substrates.

High Compressive Strength

高抗压强度

微水泥的抗压强度：3.75kg/mm²，瓷砖的抗压强度2.7kg/mm²

Compressive strength of micro cement: 3.75kg/mm2, compressive strength of ceramic tile: 2.7kg/mm2

A Fire Rating

A级防火等级

A级不燃型材料，满足各类空间应用。

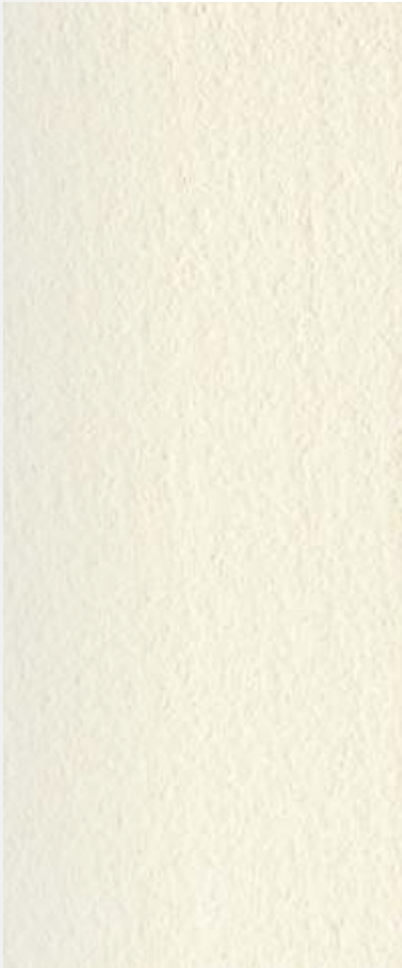

Class a nonflammable materials meet various space applications.

非常适合用于最近流行的宅寂风，
毛坯风、工业风、极简现代风、新中式、北欧风。

It is very suitable for the recently popular house style, blank style, industrial style,
minimalist modern style, new Chinese style and Nordic style.

MICRO CEMENT

微水泥

The beauty of simple "naked feeling" can't hide the
high-level feeling

质朴的“裸感”之美藏不住的高级感

作为新型的装饰材料，微水泥在设计师的笔下可谓风情万种，
从豪宅、酒店到餐馆、住宅，无论是什么场景或风格都可以轻易Hold住。
看似简单纯粹，实质变幻无穷，纹理从粗粒到细腻，色彩从冷色到缤纷，
简约却富有质感，敦实而尽显高级。

As a new decorative material, micro cement can be described as a variety of styles
in the designer's pen. It can easily hold any scene or style, from luxury houses,
hotels to restaurants and houses. Seemingly simple and pure, the essence is changeable.
The texture is from coarse grain to fine, and the color is from cold color to colorful.
It is simple but full of texture, compact and advanced.
